SKILLS

- **Frontend** – JavaScript, React Js, Nextjs, XML
- **Backend** – Node.js, Express.js, Rest APIs, Java, Kotlin
- **Database** – MongoDB, MySql, Oracle DBMS
- **Language** – JavaScript, Java, Kotlin, C++, HTML, CSS, Bootstrap, XML, Tailwind CSS

EXPERIENCE

- ❖ **Web Development Intern | DHT Solutions, Vadodara**   **(Jul '22 – Sep '22)**
  - Managed web app updates and maintenance using **PHP**, **JavaScript**, **HTML5**, **CSS3**, and **Bootstrap**
  - Developed website components following the **MVC** framework for enhanced organization
  - Implemented **AJAX CRUD** operations, collaborating to improve e-commerce user experiences
- ❖ **DevOps summer Intern | CELEBAL Technologies**   **(Jun '23 – Aug '23)**
  - Getting hands-on with the cloud platform **AZURE** and applying **DevOps** practices
  - Acquired experience in **version control systems (VCS),** with a specific focus on **Git**, to optimize code management and foster collaborative development
  - Gained fundamental knowledge of **Docker** for efficient app deployment, while leveraging **Slack** and **Microsoft Teams** for seamless team collaboration

- ❖ **Software Testing Training | Besant Technologies**   **(Jul '23 – Aug '23)**
  - Studied **SDLC** models (Waterfall, Agile, etc.) and their influence on integrated testing throughout project phases
  - Gained fundamental test automation tool Selenium

EDUCATION

Anand International College Of Engineering | CGPA: **8.5**   **(Aug '20 - Jul '24)**
St Anselm's Sr Sec School, Abu Road | *CBSE (Class XII), 88.04%*   **(May'19 - Mar '20)**

PROJECTS

- ❖ **Pinterest backend |** *Ejs | Node js*
  Implemented **Authentication & Authorization** with **Passport.js**. Utilized **Multer** for Secure Post Uploads. Designed **RESTful API** and integrated with the database for efficient functionality.

- ❖ **My Portfolio |** *Javascript | React js*
  Developed using React.js (front end) and Node.js (back end). Implemented Nordmailer for email functionality. Led full-stack development from design to deployment.

- ❖ **Noddytube |** Javascript | React js
  Noddytube is a YouTube clone built with React.js. Leveraging Rapid API, it efficiently fetches video data, channel details, views, likes, and more. This project demonstrates expertise in React.js and effective utilization of external APIs for dynamic content integration.

- ❖ **Basketball Manager |** *KOTLIN | XML*
  This app manages basketball matches, tracks real-time scores for teams and players, and highlights the MVP along with the final scores at the end of the game.

POSITIONS OF RESPONSIBILITIES

- ❖ **VICE PRESIDENT | Sports Club**
  Organized sports events, featuring diverse student competitions including volleyball, basketball, football
- ❖ **CAPTAIN | Volleyball Team**
  I had the privilege of leading my team in a district volleyball tournament, achieving a commendable second-place

ACADEMIC AND EXTRACURRICULAR ACHIEVEMENTS

- ❖ Got the **6th** position in **mathematics nationwide** (2019) and **1st** position in my school in the **MTSE** Test.
- ❖ Solved Rubik's cube in 56 seconds and solved mirror cube self without learning from anywhere
